

Unbrako

Molded and Metal T-Handle Hex Key Kits

Inch Only

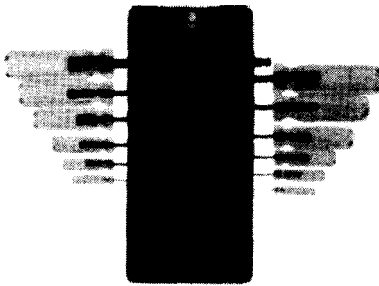

STURDY METAL STAND
This upright stand holds 10 keys instantly ready for service. The base plate has two drilled holes and is made wider than the top of stand for easy permanent mounting onto a work bench. Can be used for UNBRAKO Metal or Plastic Molded T-Handles, as well as standard UNBRAKO keys. Sizes are clearly printed on face of metal stand for quick identification. You will like the convenience of the UNBRAKO Stationary Metal Stand and the easy access to your keys.

Engineering Data

Fold-A-Key Kits

FOLD-A-KEY KITS UNBRAKO Fold-A-Key kits feature high-grade alloy steel keys, heat treated to obtain optimum strength and toughness. Each kit is size stamped for quick and easy identification. Precision drawing and manufacturing assure sharp burr-free corners for full, positive key engagement.

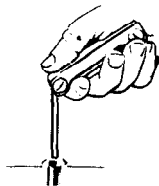

- Convenient, easy to carry and use
- Economical, more sizes in fewer kits
- Durable, UNBRAKO quality alloy steel keys for high strength

Use straight, like a screwdriver

Fold up for convenient carrying or storage

Use at angle for increased leverage
