

Oberg Precision Tooling

Oberg Industries manufactures carbide die components specifically to your print or drawing, regardless of shape or size. In many instances your special die components can be either precision ground or manufactured utilizing traveling wire electrical discharge machining (EDM).

Since 1948 Oberg Industries has been recognized as the world's leading manufacturer of precision carbide stamping die components, tooling and carbide wear parts. We specialize in the design and build of precision dies to make both flat and formed parts, especially those producing one or multiple parts with each press stroke.

With the finest manufacturing facilities and equipment, operated by the best trained craftsmen available, we've committed ourselves to maintaining our industry leadership position well into the 21st Century.
