

Lamina BUSHINGS

STRAIGHT SLEEVE BUSHINGS #AB1

Lamina's Ball Bearing Guide Assembly Bushings (AB1) are made from vacuum degassed chrome alloy steel, hardened to precise Rockwell limits to give minimum tracking, grooving and downtime.

Lamina's ball bushings are ground and honed to exacting tolerance limits. Using high tech electronic and air checking instruments on I.D. and O.D. make them interchangeable and do not require select fitting.

The top is chamfered on I.D. to minimize wear and aid alignment when disengagement is required.

To minimize bushing close-in which is a result of press fit and to eliminate any additional grinding or honing, boring instructions are provided in this catalog.

Note: Straight sleeve bushings are 1/8" shorter than nominal.
