Lamina

PORTABLE HEAVY DUTY DRILL

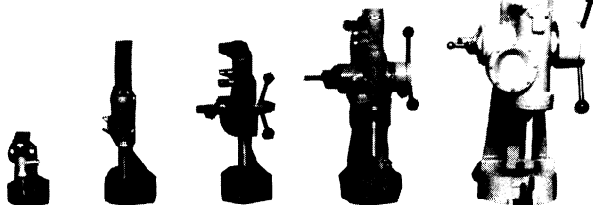

For heavy duty continuous drilling, tapping and chamfering horizontally or vertically upwardly or downwardly

Extremely precise and light enough to be moved by one person, yet has up to 2" capacity and the power to do the job of most radial drill presses

Derives its great power from a rugged 7 1/2-horsepower motor

Combines powerful magnetic base with any of five available standard size drill heads driven hydraulically for smooth power and speed control.

For complete specifications, write or call for the Lamina Portable Heavy Duty Drill Catalog
